## Annual Reminders

Below is a brief checklist for your audiometric equipment to ensure it complies with required certification and is kept in prime condition.

Equipment that requires calibration will have a "Valid to" sticker and certificate supplied, if your equipment exceeds this date contact Precision Acoustics.

### **Audiometer Calibration**

Each Audiometer needs to be calibrated annually. This includes all related equipment including headset, bone conductors, inserts, soundfield equipment, speakers and puppet boxes.

### **Tympanometer Calibration**

Each Tympanometer needs to be calibrated annually. As a Tympanometers function is an invasive process, it is especially important for your patients safety that the annual calibration is not overlooked.

## Booth Certification

Fixed Audio Booths are to be tested every three years or if relocated.

Mobile Audio Booths are to be tested every two years.

## Test & Tag

All \*basic electrical equipment is to be inspected and tested annually

*\*Australian Standards AS/NZS 3760 states this includes all Electrical Equipment used in laboratories, health-care, tea rooms, office kitchens and an office environment where the supply flexible cord is subject to flexing in normal use.*

## Arrange certification

Simply contact Precision Acoustics, our accredited technicians will carry out

- Audiometer Calibration
- Tympanometer Calibration
- Booth Test
- "Test & Tag" all equipment

Precision Acoustics calibrations are WorkCover approved.

## Email Reminder

Precision Acoustics will send you a personalized email reminder prior to any equipment calibration due date. Ensure we have your correct details so these reminders do not go astray.
