

Teach seamlessly with Pro Digital

Clear, reliable audio that's effective and efficient.

KEY BENEFITS

- Clear amplified sound - Imperative for early years education
- Teacher Edition - Lesson Capture Software
- Integrates with other devices
- Multiple Speakers

Optivoice strengthens critical sounds, doing the work of a 12 band equalizer with a single switch.

Save money (and maybe even the planet). FrontRow products use significantly less energy – up to 63% less – than other systems. They're a smart choice for schools and the environment.

Generation II Digital Signal Processing & Feedback Suppression, automatically adjusts sound quality and power usage.

Earth-friendly design FrontRow's design and manufacturing practices keep lead, mercury, PBDE and other toxins out of its products — and out of the environment.

Combining PFM and classroom amplification technologies means that teachers only have to wear one microphone.
